FARMERS UNION

Agricultural leaders in Appomattox County interested in the work of the Virginia Farmers Union will meet next week to map plans for the 1958 membership drive, Peyton Harvey, of Appomattox, president of the Appomattox County Farmers Union, said today.

The National Farmers Union is one of the three largest farm organizations in the nation, and the Virginia Farmers Union has a membership of nearly 17,000 farm people, although it has been organized only three years.

The meeting of the Appomattox County farm leaders will be held at the Court House at Appomattox on Monday night, December 9, at 7:30 o'clock. A representative of the state organization will be the key-note speaker.

The drive for the 1958 memberships in Appomattox County will be conducted next week, beginning on Tuesday, when members of the county group will visit practically every farmer in the county to explain the accomplishments of the organization and its benefits to agricultural programs during the past years.

More than 200 Appomattox County farm families were members of the Appomattox County Farmers Union this year.

The only 1958 car that offers more of everything you want... yet is priced lower than in '57

Here's great news! While prices of 1958 cars of other manufacturers are *up*, the price of Ford's exciting new Custom 300 Series is *down*. A brand-new 58 Ford Custom 300 with all of its exciting new styling and engineering advances is priced *lower* than a '57 model, similarly equipped!

World approved styling. A Custom 300 brings you styling that is dramatically *new*. With its Honeycombed grille, Slimstream roof, Deep-Sculptured rear deck, and Safety-Twin headlights and taillights, Ford styling drew admiring glances from Paris to Saigon . . . yet it's yours now in any 58 Ford Custom 300 without extra cost!

New handling ease. Slide behind the wheel of a Custom 300 and you'll soon discover just how much *fun* driving can be. Notice how smoothly it handles. That's Ford's new feather-touch Magic-Circle steering, the next best thing to power steering.

New riding comfort. Notice, too, the solid *comfort* of your ride. That's Ford's easier action front and rear suspensions. They soak up the bumps before they reach you.

Thrifty, new engines. You have a wonderful choice of new, more efficient power plants — designed for real gas-saving economy plus greater performance. Six or V-8, they give you more power, smoother power, from less gas!

Priced as much as $50 lower. A comparison of manufacturer's suggested delivered prices shows that a 58 Ford Custom 300 is priced as much as $50 less than the same model for '57! You'll wonder how Ford can offer so many of the things you want in a car priced so low. One big reason: Ford gives you more *car* for *less money* because Fords sell more!

See and drive a Custom 300 and we believe you'll agree that these Fords give you more *real value* for your car-buying dollars than any car on the American road today.

Masonic Lodge Names Officers For New Year

At a Stated Communication of Monroe Lodge No. 201, Ancient Free and Accepted Masons, held on December 9, the following officers were selected for 1958:

Robert L. Bumgardner, Worshipful Master; Hunt P. Hamilton, Senior Warden; William C. Hubbard, Junior Warden; James H. Lucado, Treasurer; J. Calvin Hudgins, Secretary; Granville P. Morris, Senior Deacon; Edwin R.Carter, Junior Deacon; W. Dean Conner, Chaplain; James E. Beamer, Senior Steward; James R. Redding, Junior Steward; R. Bruce Haley, Tiler; Claude W. Smith, Marshal.

The Lodge enjoyed a good year, increasing its membership and improving the interior of the lodge hall by repainting the walls and painting.

It is hoped that during 1958 that a new look will be given the kitchen and dining room, replacing the present kitchen equipment and dining room furniture.

Mr. Bumgardner repiaces James E. Beamer, retiring Worshipful Master.

Soil Bank Lists 1958 Program

General provisions of the Soil Bank's Acreage Reserve program for 1958 spring-planted crops will be the same as announced last August for the 1958 crop winter wheat, W. T. Powers, Administrative Officer for the State Agricultural Stabilization and Conservation Committee, announced.

The Acreage Reserve is the part of the Soil Bank under which farmers agree to reduce their current year's acreage of "basic" crops of upland cotton, wheat, and tobacco below their established acreage allotments, Mr. Powers explained. In return, growers earn payments which maintain net income for the land put in the program.

For 1958, the "allotment" land put in the 1958 Acreage Reserve are somewhat higher for most crops than the rates which were in effect for 1957. The national average payment rates per acre for 1958 are: Wheat, $20.88; upland cotton, $58.95; flue-cured tobacco, $0.18 per pound; burley, $0.18 per pound; fire-cured, $0.13 per pound; sun-cured, $0.12 per pound; and Maryland, $0.17 per pound, Mr. Powers explained.

Per-acre rates for the individual farm will be determined from the county average figure, according to the relative productivity of the farmland, Farmers who took part in the 1957 Acreage Reserve will be paid a 10-per cent premium above the 1958 compensation rate set for their farms if they put the identical land in the 1958 program.

The sign-up period for the 1958 Acreage Reserve will lopen on January 13, and close March 7. Powers urges farmers who want to take part in the program to visit the County ASC. Office as an early date, and to bring along records of the farm acreage of each crop grown for 1956 and 1957. A "Soil Bank base" must be determined for each farm taking part in the program, based primarily on such farm history. Total harvested acreage of Soil Bank base crops on the farm must be reduced below this "base" by the number of acres placed in the Soil Bank.

Since funds available for payments are limited, farmers should sign up early to assure that their agreements will be accepted.

Figures based on the 1950 census showed that the largest single number of persons employed in any one division of employment was 188,590 in the wholesale and retail tarde in Virginia. This figure represented a 65 per cent increase over the 1940 total, according to the Virginia State Chamber of Commerce.

Play safe — drive carefully.

Appomattox is a growing town.

Council Votes Parking Meters For The Town

Mayor C. T. Moses, Jr, today issued the following weekly news release on Town affairs:

To the Citizens of the Town of Appomattox: I again want to thank all of you fine people for your untiring efforts in trying to help us clean and beautify the town.

Christmas is drawing near, and I certainly hope that everyone will bear in mind our loyal Volunteer Fire Co. Mr. E. T. Mitchell has volunteered to head this drive, so I would appreciate it if you would send your contributions to him, The Volunteer Fire Co, is also manning the county fire truck, so I feel sure that the county citizens would like to have a part in helping the best volunteer Fire Co. in the state.

On Monday night, Dec. 9, a Special Meeting of Town Council was held, and the principal item of business was the matter of Parking Meters. After considerable discussion, the Council voted to purchase and install 75 Parking Meters, in the principal business district. It had been my sincere desire that the Town have larger and more adequate free parking areas available near or in the business section before meters were purchased and installed. However, the action of the Council was that the time has come to install meters in the hope of relieving the congestion in the business section. I hope that this will work out for the best interest of all, and on this and all other matters affecting our community we are always anxious to hear your opinion and receive your advice.

Let's all remember to continue with our efforts to clean our streets and sidewalks, and make Appomattox a more friendly and courteous town in which to live.

Sincerely,
C. T. Moses, Jr.
